Info
Facts

WHAT IS ARBOR MULCH?

Arbor Mulch is a FREE, all-natural mulch containing wood, leaves, and other tree parts. All tree material removed in the pruning or removal process is chipped into Arbor Mulch. Apply Arbor Mulch to your landscapes to reduce landfill waste and benefit your trees in many ways.

BENEFITS

FERTILIZES

RETAINS MOISTURE

SUPPRESSES WEEDS

PROTECTS TREE ROOTS

MODERATES SOIL TEMPERATURE

FREE MULCH! SAVES YOU MONEY!

FAQ'S

What's the appearance of Arbor Mulch? Fresh Arbor Mulch contains wood, green leaves & twigs and dries out in a week.

Will mulch attract termites? Mulch won't attract termites, which need underground or larger wooden structures. Simply don't pile mulch against buildings!

How often does mulch need to be applied? Apply a fresh layer of mulch 2-4" thick about every 2 years. Don't pile mulch against tree trunks.

Will A Plus Tree spread out the mulch? We leave the mulch at your designated drop zone. You are responsible for spreading the mulch. We do not deliver mulch off-site.

Arbor Mulch under landscape trees improves both soil health and tree health.
